

## **Bond Timber Environmental Policy**

At Bond Timber, we believe that every sale is worth achieving and our impact on the environment and waste is worth reducing.

We believe that with our experience, resources, and talent we can reduce our impact on the environment and prevent pollution.

To reduce our impact on the environment our objectives are to:

- Reduce the amount of waste we produce.
- Reduce the consumption of water, fuels, and other raw materials.
- Use recyclable, renewable, and sustainable materials in place of virgin products where possible.
- Regularly review our systems and processes to ensure we operate efficiently and utilise the latest technology to continuously improve.

Directors and staff will meet our objectives by:

- Giving open and honest answers
- Investigate, resolve, and learn from any issues that arise to ensure they are not repeated.
- Meet all our legal, moral, and compliance obligations.
- Constantly review and improve what we do.
- Keep our teams informed and grow and develop our talent.

The directors and all staff are committed to establishing, maintaining, and constantly reviewing and improving our environmental management system standards for the protection of the environment, the prevention of pollution and to meet our compliance obligations and achieve our objectives to enhance our environmental performance.

Copies of our environmental policy are made available to all our customers and members of staff.
